# Trips to Lego land

# Introduction

Pictures of characters and things in story.

Once upon a time, Rafay and Adnan decided to go to Legoland.

They had three ways to travel: by car, by train and tram, or by bus and tram.

The travel options were shown in circles.

They decided to make three trips.

On their first trip, on December 24, 2024 (Christmas Eve), they chose to go to Legoland by bus and tram.

5 months and 14 days later, on their second trip, they travelled by car, train, and tram.

Another 5 months and 1 day later, on their third trip, they went to Legoland by car.

On Trip 1, we made a monster truck and rode it down the small road slide.

Then we made a more powerful monster truck and slid it down the steep road slide.

On Trip 2, we got an activity sheet and had to do things like finding stamps and building with Lego.

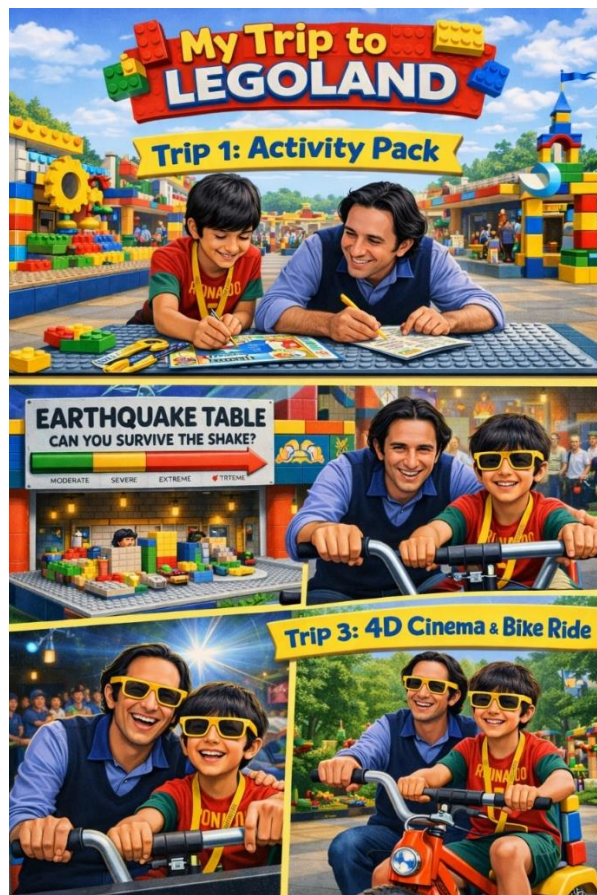

We also tried making earthquake-proof buildings, and when we pressed the button, it started an earthquake, brrrrr!

On Trip 3, we went to a 4D cinema where snow fell on us and we got all wet.

Then we went on a cycling ride.

Last but not least, we rode a slow roller coaster where we had guns and had to aim at our targets.

All three trips were so, so much fun!!!

# Where did we park?

On our third trip, we went by car and parked nearby on the 9th floor of the multi-storey car park. Surprisingly, when we came out of the car park, we saw Sea World next to Legoland!

So we went into Legoland and started all the fun!

This is Rafay    This is Adnan

# Journey of trip 1

From our house, we went to the bus stop right outside our home.

We sat on the X14 bus to Birmingham city centre.

On the journey, we took pictures, played games, watched the beautiful scenery, ate our snacks, and sat on the top deck of the double-decker bus.

From the city centre bus stop, we took the tram to Legoland.

# Journey of trip 2

First, we went down the stairs from our flat and walked to our car.

We drove to the train station, and on the way we saw lovely green scenery and gardens.

When we arrived at the train station, after a few minutes our train came. We hopped on, and the train stopped at many stations. At the last station, which was ours, we jumped off and walked for about five minutes.

Then we hopped on the tram. The tram was very, very slow, but we arrived quite quickly!

After we arrived, we walked to the centre and saw waterfall pools and fountains.

We also saw lakes, bridges, and...

And we arrived at Lego Land!

## Journey of trip 3

We went downstairs, hopped into the car, and drove far, far away.

We saw beautiful scenery like we did on the train, and also tall skyscrapers.

We went through underground tunnels and sometimes off the main roads.

We even saw construction sites!

Before we went to Legoland, we went swimming, so we were very cold and hungry.

We ate the snacks in the car that we brought from home before we left.

# At Lego land

## On the first trip,

we stayed in Legoland for three hours, making things and doing fun activities.

## On the second trip,

we stayed about two hours, playing games, building things, and trying the earthquake shaker.

## On the third trip,

we stayed the longest. We went to the 4D cinema, made cars and slid them down the car slide, rode the slow roller coaster, and enjoyed the bike ride.

THE  
END

# *Trips to Cadbury World*

Yum and Bub had  
three choices.

1. Car,
2. Bus and Tram
3. Train and tram.  
to go to Lego land
