# Trips to Lego land

# Introduction

Pictures of characters and things in story.

Once upon a time, Bub and Yumey decided to go to Legoland.

They had 3 options to pick car, train and tram or bus and tram.

The options to travel are in the circles.

They decided to have 3 trips. On their first trip, on Dec 24, 2024 (on Christmas eve), they decided to go on the bus and tram to Legoland.

5 months and 14 days later.

On trip 2, they went on the car, train and tram.

Another 5 months and 1 day later.

On trip 3, they went on car to Legoland.

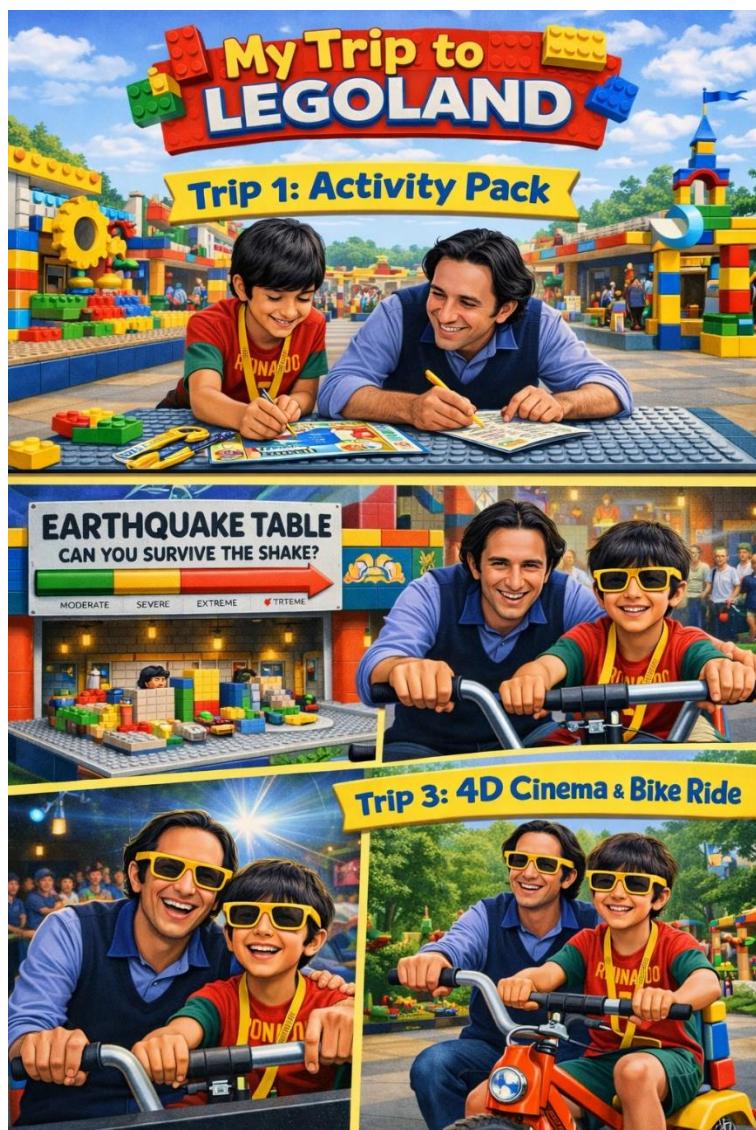

On trip 1, we made monster truck and riding it down the small road slide. Then we made a more powerful monster truck and then we slid it down the steep road slide.

On trip 2, we got an activity sheet and we had to do things on it like finding stamps and making Lego. We also tried making earthquake proof buildings and once we pressed the button, it started an earthquake like brrrrr.

On trip 3, we went to a 4D cinema where snow fell on us and we got all wet. Then we also sat on a cycling ride. Last but not least, we sat on a slow roller coaster where we had guns which we had to point on our targets.

All three trips were so so much fun!!!

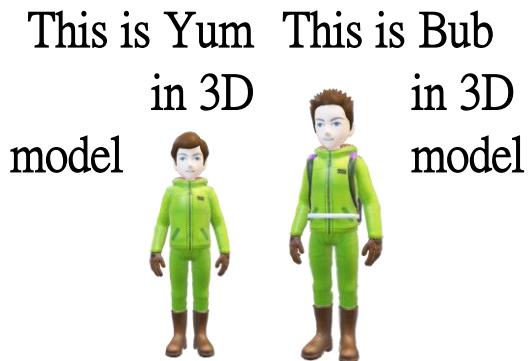

Three legoland activities

# Where did we park?

On our third trip, we went on car and we parked nearby on the 9<sup>th</sup> floor in the multi-story car park.

Surprisingly, when we got out of the car park, we saw Sea World next to Legoland so we went in the Legoland and started all the fun!

# Journey of trip 1

From our house, went to the bus stop that is right outside our house.

We sat on X14 to Birmingham city centre.

On our journey, we took pictures, played games and watched the beautiful sceneries and ate our snakes, and sat on the top deck of the double decker bus.

From the city centre bus stop, we took the tram to the Legoland.

# Journey of trip 2

Firstly, we went down the stairs from our flat.

We went down to our car. We drove to the train station and in between we saw lovely green sceneries and gardens. When we arrived at the train station, after a few minutes our train arrived. So we hopped on and the train stopped to

a lot of stations and at the last station, which was ours, we jumped off and then we walked for about 5 minutes and then we hoped on the tram. The tram was very very slow but we arrived there quite quickly. After we arrived, we walked to the centre and saw the waterfall pools and fountains. We also saw lakes bridges and...

# And we arrived at Lego Land!

## Journey of trip 3

We downstairs and hoped on the car and went far far away, saw beautiful sceneries like in the train and skyscrapers. We went through underground tunnels and sometimes off track. We saw construction sites. Before we went to Lego land, we went swimming so we were very cold and hungry so we ate the snacks in the car which we got from our house before we left.

# At Lego land

## On the first trip,

we stayed in Lego land for 3 hours making things and doing fun activities.

On trip 2,

we stayed about 2 hours playing games, making things and playing with the earthquake shaker.

On trip 3,

we stayed the longest going to the 4D cinema, making cars and sliding them down the car slide, riding the slow roller coaster and enjoying the bike ride.
